<b>Event Title</b>	Fortifying Cyber Defense: Exploring Vulnerability Management and Threat Intelligence with Secpod		
<b>Date</b>	04.01.2022	<b>Time</b>	6pm
<b>Event Type</b>	Webinar	<b>No. of Participants</b>	84
<b>Venue</b>	Virtual		
<b>Target Audience</b>	Final year BE & MCA student		
<b>Event Organizer</b>	Placement & Training Department		
<b>Resource person with Details</b>	Ranjan Ram, Technical Team member from Secpod		
<b>Event Objective</b>	<p>Strengthened Security Measures: Participants gain insights into effective vulnerability management strategies and threat intelligence practices, enabling them to enhance their organization's cybersecurity posture and mitigate potential risks.</p> <p>Enhanced Risk Awareness: Attendees become more aware of the evolving threat landscape and the importance of proactive measures such as vulnerability assessment and threat intelligence gathering in safeguarding against cyber threats.</p> <p>Empowered Decision-Making: The event equips participants with the knowledge and tools necessary to make informed decisions regarding cybersecurity investments, resource allocations, and risk mitigation strategies.</p>		
<b>Outcome</b>	<p>Educate on Vulnerability Management: To educate participants about the importance of vulnerability management in identifying and addressing security weaknesses within IT systems and networks, with a focus on best practices and industry standards.</p> <p>Explore Threat Intelligence: To explore the concept of threat intelligence and its role in providing insights into emerging cyber threats, enabling organizations to anticipate and respond effectively to potential security incidents.</p> <p>Promote Cyber Resilience: To promote the adoption of proactive cybersecurity measures, including vulnerability management and threat intelligence, to enhance organizational resilience against cyber threats and attacks.</p>

<b>Event Title</b>	AI-Powered Supply Chain Optimization: A Technical Insight		
<b>Date</b>	12th Jan 2022	<b>Time</b>	10:30 am
<b>Event Type</b>	Virtual	<b>No. of Participants</b>	94
<b>Venue</b>	Webinar		
<b>Target Audience</b>	Pre-final year BE students		
<b>Event Organizer</b>	Placement & Training Department		
<b>Resource person with Details</b>	Sanjeev Sidhu, Technical Member at O9 Solutions		
<b>Event Objective</b>	a) To explore the intersection of artificial intelligence and supply chain management. b) To understand the role of AI platforms in optimizing supply chain operations. c) To provide technical insights into how O9 Solutions leverages AI for supply chain solutions.		
<b>Outcome</b>	a) Increased understanding of AI's applications in supply chain optimization. b) Enhanced knowledge of technical aspects related to supply chain management. c) Potential interest among students in pursuing careers in AI-driven supply chain technologies increased

<b>Event Title</b>	Technical Talk of Epiphemy IT Solutions on Ensuring Security and Data Integrity during data transfer		
<b>Date</b>	14.03.2022	<b>Time</b>	10am
<b>Event Type</b>	Seminar	<b>No. of Participants</b>	25
<b>Venue</b>	Placement Department Seminar Hall		
<b>Target Audience</b>	BE students		
<b>Event Organizer</b>	Placement & Training Department		
<b>Resource person with Details</b>	Sanyogita Singh of Technical Team from EPIPHEMY IP SOLUTIONS		
<b>Event Objective</b>	<ol style="list-style-type: none"><li>1. Educate attendees about the importance of security and data integrity in data transfer processes.</li><li>2. Showcase the advanced techniques and technologies offered by Epiphemy IT Solutions for ensuring secure data transfer.</li><li>3. Provide practical insights and best practices for implementing robust security measures during data transfer procedures.</li></ol>		
<b>Outcome</b>	<ol style="list-style-type: none"><li>2. Increased awareness among participants about the risks associated with insecure data transfer methods.</li><li>3. Enhanced understanding of the strategies and tools available for safeguarding data integrity during transfer.</li><li>4. Empowered attendees with the knowledge to implement effective security protocols in their own projects or organizations, thereby reducing the likelihood of data breaches and ensuring compliance with data protection regulations.</li></ol>

<b>Event Title</b>	Placement & Training Department has scheduled the Talk by Bosch "Bosch Rexroth: An Overview of Advanced Engineering"		
<b>Date</b>	21.07.2022	<b>Time</b>	10am
<b>Event Type</b>	Seminar	<b>No. of Participants</b>	36
<b>Venue</b>	Placement Department Seminar		
<b>Target Audience</b>	BE Final Year Students		
<b>Event Organizer</b>	Placement & Training Department		
<b>Resource person with Details</b>	Dr. Stefan Kock, Advance engineering, Bosch Rexroth		
<b>Event Objective</b>	<ol style="list-style-type: none"><li><b>**Showcase Innovations**</b>: Present Bosch Rexroth's latest advancements in engineering technologies, including motion control, drive and control systems, and industrial automation.</li><li><b>**Demonstrate Solutions**</b>: Share case studies and real-world applications that illustrate the impact of Bosch Rexroth's advanced engineering solutions on various industries such as manufacturing, logistics, and energy.</li><li><b>**Encourage Collaboration**</b>: Foster partnerships and collaboration opportunities with engineers, researchers, and industry leaders to develop innovative solutions and drive progress in advanced engineering.</li></ol>		
<b>Outcome</b>	<ol style="list-style-type: none"><li><b>**Increased Adoption**</b>: Attendees gain insights into the potential of Bosch Rexroth's advanced engineering solutions, leading to higher adoption rates and integration into their projects and operations.</li><li><b>**Enhanced Efficiency and Productivity**</b>: By implementing Bosch Rexroth's technologies, businesses can optimize processes, improve productivity, and achieve greater operational efficiency.</li><li><b>**Strategic Partnerships**</b>: Opportunities for collaboration and partnerships with Bosch Rexroth emerge, leading to the development of cutting-edge engineering solutions and expanded market reach for both parties.</li></ol>

<b>Event Title</b>	Enabling Data - driven Solution in product life cycles with Synthetic data. By Sorocco		
<b>Date</b>	28.07.2022	<b>Time</b>	6.30pm
<b>Event Type</b>	Webinar	<b>No. of Participants</b>	72
<b>Venue</b>	Virtual		
<b>Target Audience</b>	Pre Final year BE students		
<b>Event Organizer</b>	Placement & Training Department		
<b>Resource person with Details</b>	Mr. Vyas Sekar, Sorocco		
<b>Event Objective</b>	<p>Enhanced Product Development: Participants gain insights into how synthetic data can drive innovation throughout the product lifecycle, leading to more efficient and effective product development processes.</p> <p>Improved Decision-Making: Attendees learn how to leverage synthetic data to make informed decisions at various stages of the product lifecycle, resulting in better outcomes and optimized resource allocation.</p> <p>Increased Competitiveness: The event equips participants with the knowledge and tools necessary to harness the power of synthetic data, enabling them to stay competitive in the rapidly evolving landscape of product development and innovation.</p>		
<b>Outcome</b>	<p>Educate on Synthetic Data: To educate participants about the concept of synthetic data and its applications in product lifecycle innovation, highlighting its potential benefits and advantages over traditional data sources.</p> <p>Explore Data-Driven Innovation: To explore how data-driven approaches, facilitated by synthetic data, can drive innovation across different stages of the product lifecycle, from ideation to market launch and beyond.</p> <p>Empower Implementation: To empower participants with the skills and strategies needed to effectively implement synthetic data solutions in their own product development processes, fostering a culture of data-driven innovation within their organizations.</p>

<b>Event Title</b>	Advanced Engineering Techniques in Semiconductor Manufacturing		
<b>Date</b>	16/08/2022	<b>Time</b>	7:00 PM
<b>Event Type</b>	Webinar	<b>No. of Participants</b>	43
<b>Venue</b>	Virtual platform		
<b>Target Audience</b>	M.Tech 1st year students specializing in Power Electronics MMD & PDM		
<b>Event Organizer</b>	Placement & Training Department		
<b>Resource person with Details</b>	Tripti Sikhdar, Manager TA, Applied Materials		
<b>Event Objective</b>	<ol style="list-style-type: none"><li>1. Introduce advanced firmware and hardware skills essential for semiconductor manufacturing.</li><li>2. Provide insights into functional knowledge and business expertise in Controls Engineering &amp; Process Engineering.</li><li>3. Offer career guidance and opportunities in the semiconductor industry.</li></ol>		
<b>Outcome</b>	<ol style="list-style-type: none"><li>1. Increased awareness and understanding of the technical requirements in semiconductor manufacturing.</li><li>2. Enhanced appreciation for the role of firmware, hardware, and functional knowledge in the industry.</li><li>3. Opportunities for networking and potential internship or job placements with Applied Materials.</li></ol>

<b>Event Title</b>	How Automation, robotics and NetZero technologies are helping feed a growing population?		
<b>Date</b>	15.02.2023	<b>Time</b>	03:00 PM
<b>Event Type</b>	Webinar	<b>No. of Participants</b>	58
<b>Venue</b>	Virtual		
<b>Target Audience</b>	BE students		
<b>Event Organizer</b>	Placement & Training Department		
<b>Resource person with Details</b>	Dr. Hongwei Zhang Beng MSc PhD MIET CENG FHEA- Senior Academic in the Department of Engg & Mathematics at Sheffield Hallam University		
<b>Event Objective</b>	<ul style="list-style-type: none"><li>• <b>Educate on Technological Solutions:</b> To elucidate the various ways automation, robotics, and net zero technologies are being applied in agriculture and food production to increase productivity while minimizing environmental impact.</li><li>• <b>Highlight Industrial Adoption:</b> To showcase examples and case studies of how industries around the world are embracing automation and robotics in their processes, illustrating the tangible benefits and potential for scalability.</li><li>• <b>Advocate for Sustainable Practices:</b> To advocate for the adoption of sustainable practices and technologies in food production as a means to address the challenges of feeding a growing population while mitigating the impacts of climate change and resource depletion.</li></ul>		
<b>Outcome</b>	<ul style="list-style-type: none"><li>• <b>Increased Awareness:</b> Attendees will gain a deeper understanding of how automation, robotics, and net zero technologies are revolutionizing the food production industry to meet the demands of a growing population sustainably.</li><li>• <b>Inspiration for Innovation:</b> Participants may be inspired to explore and invest in technologies that promote efficiency and sustainability in food production, potentially leading to new inventions or solutions in the field.</li><li>• <b>Discussion and Collaboration:</b> The lecture may stimulate discussions among attendees, fostering collaboration between industries, researchers, and policymakers to further develop and implement these technologies on a larger scale.</li></ul>

<b>Event Title</b>	Exploring Design & Verification of Mixed-Signal & RF Chains with Signal Chip		
<b>Date</b>	19th August 2023	<b>Time</b>	9:00 am
<b>Event Type</b>	Seminar	<b>No. of Participants</b>	121
<b>Venue</b>	College Auditorium (IEM Block)		
<b>Target Audience</b>	Pre-final year BE students in ECE, EIE, ETE, EEE		
<b>Event Organizer</b>	Placement & Training Department		
<b>Resource person with Details</b>	Name: Nikhil B.G. Designation: Technical Team Company: Signal Chip		
<b>Event Objective</b>	<ol style="list-style-type: none"> <li>1. Provide insights into the design and verification process of mixed-signal and RF chains.</li> <li>2. Introduce students to signal processing accelerators and their applications.</li> <li>3. Enhance understanding of the practical aspects of signal chip design in real-world scenarios.</li> </ol>		
<b>Outcome</b>	<ol style="list-style-type: none"> <li>1. Increased awareness among students about the complexities and challenges involved in designing mixed-signal and RF chains.</li> <li>2. Potential inspiration for students to pursue further studies or careers in chip design and verification.</li> <li>3. Opportunities for networking and potential internships or job placements with Signal Chip for interested students.</li> </ol>
